Department of Water Resources

State of Idaho
Department of Water Resources

Dear Mr. Luke;

Please take note of the three following items.

1. Thanks for the reminder. I do intend to comply with the Department's order of 10-11-01, requiring installation of a measuring device on my well into the Timberdome canal.
A restricted orifice will be the method.
I will talk with Watermaster Rosenkrance to ensure proper procedure.
2. Would you please update me on the status of Water Right Application #34-07430
This concerns Antelope water.
3. And the Timberdome Canal Company has a new address, this should help avoid confusion in the event of future changes in leadership of the company. We have obtained a Post Office Box. Therefore company mail will not be during times of change of officers.

Timberdome Canal Company Inc.
Box 521
Arco Idaho, 83213

Thanks for your time and consideration of these three items,
Steven Aikele
